Renting Scuba Equipment for a Scuba Vacation

or local dive adventure?

What equipment do I need?

Mask, fins, snorkel, appropriate wet suit, BCD, weight pockets or weight belt, regulators with computer and compass, Surface Marker Bouy (SMB), Reel

Are the tanks and weights supplied by the Resort/Charter operator or are you bringing your own?

🚤 **Scuba Rentals?** **Are you Renting? Where will you rent from?**

Renting from your home location:

Pluses of renting from home: **You can familiarize yourself with your gear including the computer…Go to Scuba 2000 and get a discount, you can get the sizing you want.**

Negatives of renting from home: **The Resort may not service it, if a problem arises. You need to travel with all that gear.**

Renting from the Resort/local dive store:

Pluses of renting from the Resort: **Don't have to bring on the plane.**

Negatives of renting from the Resort: **May not be happy with what you are getting when you get there.**

If you are renting from a Resort, call 1st to ensure they have what you need and can hold it for you.
